## **SCHEDULE "B" to BY-LAW 105 of 2000**

### **REASON FOR PROPOSED DESIGNATION:**

#### Historical Criteria:

St. Andrew's Church is located on Lot 16, Conc. II of Torbolton Ward of West Carleton at the intersection of the roads now known as Kilmaurs Side Road and Woodkilton Road. In the past this active community centre known as Kilmaurs, boasted as a blacksmith shop, a general store, and Orange Hall, an outdoor skating rink with cabin, two houses and ST. Andrew's Church.

Torbolton Township's first Church built to hold 200 people, was built in 1851 on a corner lot at Dirleton. This lot Church, the only Church in the Township until 1870, continued in use until 1884.

A milestone was reached in 1875 when the "Presbyterian Church of Canada" came into being. By 1884 the congregation of the Dirleton Church has surpassed in numbers that of the Fitzroy Church and a larger more central church was needed in Torbolton. Henry Penney donated the land on which the present Church is built. It is reported that large stone, which had been cut for the aborted Georgian Bay Ship Canal project at Fitzroy Harbour, was obtained. Costs were not met by the first donations and a second subscription was taken. Finally in 1886, the present St. Andrew's Presbyterian Church, Kilmaurs, opened its doors, with Reverend William Shearer as its first Minister.

In 1925 the United Church of Canada was formed but the congregation of St. Andrew's voted to remain Presbyterian. The last two votes, both dissenting, were made by two female descendants of founding pioneers, Lieutenant John Grierson and Henry Penney.

The stone Kirk, whose origin dates back 150 years, has now been open for 115 years and is one of only two stone Churches in Torbolton Township. It stands as the most predominant landmark structure at Kilmaurs and is the only building at the intersection which remains in its original state.

#### Architectural Criteria:

The building is preserved in its original state. Both the exterior and interior are the same now as they were in the distant past.

The large stones used in the construction are solid and everlasting with the walls being of grey limestone while the quoins (cornerstones) are a deeper brownish sandstone. The Church stands majestic with its original gothic windows and extended stone porch at the front entrance.
