CORPORATION OF THE CITY OF TRENTON
BY-LAW NO.84-464

SCHEDULE "A"

The property known as 72 Byron Street, Trenton, being Lots 247, 273 and Part of Lots 274, 246, Plan 419, City of Trenton, is recognized as being of architectural and historical value for the following reasons:-

The building is a fine example of a limestone dwelling of Gothic Revival influence with Classical Revival details. The house is a storey and a half with a lower storey and a half tail extending from the west side. The structure has a three bay facade with centre gable which is ornamented with a chamfered finial and drop. The gable ends of the house are finished with eaves returns. Casement windows have been used and french doors are used in the openings along the front facade.

The house was constructed by Sheldon Hawley in 1863. Hawley is considered a founding father of Trenton, having come to the settlement in 1817. Hawley was engaged in the lumbering industry and mercantile business. He was largely responsible for the construction of the first bridge across the Trent River and was instrumental in petitioning the government to lay out a town site on the west bank of the river. Hawley also served as reeve of Trenton during 1855.

The dwelling holds a prominent location on the block between George Street and Princess Street.
