## Town of Caledon launches 2015 Provincial Plan Review

The Town of Caledon is proactively seeking public input on the upcoming review of four Provincial Plans that significantly influence almost all aspects of planning in the Town.

Greenbelt Plan

Niagara Escarpment Plan

Oak Ridges Moraine Conservation Plan

Growth Plan for the Greater Golden Horseshoe

### Why is This Important to Caledon Citizens?

The purpose of the review is to assess the effectiveness and relevance of the policies, and suggest amendments, if appropriate, to improve the future effectiveness and relevance. The review of these plans is important as parts of the Town of Caledon lie within the Niagara Escarpment and the Oak Ridges Moraine, and as well, the Town of Caledon is part of the Growth Plan for the Greater Golden Horseshoe and the Greenbelt Plan.

### Your Chance to Have Your Say...

Town Planning staff would like to hear from all affected and concerned members of the public, in advance of the Provincial review, on how these provincial plans have changed the way you live, work and play in Caledon.

### Caledon's Walk of Fame Nominations

The Town of Caledon is now accepting nominations for the 2014 inductees to Caledon's Walk of Fame. Since 1996, the Walk of Fame has been honouring local individuals who have made a significant contribution locally, nationally and internationally. All nomination forms must be submitted to the Town of Caledon by 4:00 p.m. on Friday, February 1, 2014. Nomination forms are available online at [www.caledon.ca](http://www.caledon.ca), from the Parks & Recreation Department or by calling 905.584.5254.

### Notice of Intention to Designate

TAKE NOTICE that the Council for The Corporation of the Town of Caledon intends to designate the following property as being of cultural heritage value or interest under Section 29 of the Ontario Heritage Act, R.S.O. 1990, Chapter O.18:

#### Former Caledon Ski Cabin, 16590 Hurontario Street

Part Lot 6, Concession 1 WMS being Part 1 on 439-31272, Town of Caledon, Regional Municipality of Peel

Although not original to its current site, this log cabin has a direct association with the development and early years of recreational skiing activity in the Town of Caledon by area residents and ski enthusiasts from Toronto and more distant locations. During the Second World War, it was associated with Norwegian (and others) who were in Canada as part of the British Commonwealth War Air Training Plan. Likely built in the early- to mid-1930s, the cabin's round log construction type—with the logs spaced on the interior and exterior, and with westerly ends at the intersecting corners—originated in Scandinavia and Eastern Europe. This rustic style, adopted by American and Canadian Park Services beginning in the late 19th century, is used for Ontario ski lodges and chalets as a tribute to the Scandinavian origins of skiing and the rustic, natural wood construction of recreation ski cabins. The use of oversized metal door hinges, bolts, and shaped reinforcing bars on the cabin's vaulted entrance door is both a Scandinavian influence and an early 20th century Arts and Crafts Revival period element.

The 1960 relocation and reassembly of the cabin and the subsequent alterations that added a basement, fireplace, bedrooms, a change in entrance, replacement windows and floors, and other upgrades are part of the evolution of the structure and have not altered its ambience and charm as a traditional log cabin in a rural setting.

Further information regarding the heritage attributes and designation of this property is available in the Heritage Review Office at the Town of Caledon Town Hall.

Any person may, within thirty days of the publication of this notice, send by registered mail or deliver to the Clerk notice of his or her objection to the proposed designation, together with a statement of the reasons for the objection and all relevant facts. If a notice of objection is received, the Council for The Corporation of the Town of Caledon will refer the matter to the Conservation Review Board for a hearing and report.

## Safety Messages from Fire & Emergency Services

### Chimney Safety

The Town of Caledon Fire & Emergency Services has seen an increase in responses for Chimney Fires. We are urging owners / tenants to take a few moments before lighting the fire to ensure the flue is completely open and that the chimney is free from creosote deposits.

To prevent a fire or exposure to carbon monoxide poison, please practice the following:

- Check your chimney regularly for signs of damage or creosote.
- Have all chimneys cleaned and inspected at least annually in order to prevent a build-up of fire causing creosote.
- Install carbon monoxide alarms in every home.
- Install working smoke alarms in every level of your home.

For inquiries, please contact the fire service at 905.584.2272 x.4303 or visit us online at [www.caledon.ca](http://www.caledon.ca)

### Restoring Emergency Protection Equipment

In light of the recent ice storm, the Caledon Fire & Emergency Services is reaching out to the business community to ask for support in checking all emergency equipment. Emergency Lighting and Exit Lights are powered by electrical power, backed up by battery power. In the event of a power outage, these units supply illumination for a short period of time, this allows occupants to evacuate. Since the power outage in some areas was lengthy, we are urging building owners / occupants to ensure these units are operational, by performing the following steps:

**Step 1 - Visually check all emergency lights and exit lights to ensure they are illuminated.**

**Step 2 - Turn off the electrical power; are all emergency lights and exit lights still illuminated?**

If one unit is NOT illuminated, please contact your local fire protection company to correct the issue.

Let us all do our best to continue to keep everyone safe within our environment and perform these two easy steps.

For inquiries, please contact the fire service at 905.584.2272 x.4303 or visit us online at [www.caledon.ca](http://www.caledon.ca)
