SCHEDULE "B"

TO BY-LAW NO. 22 - 86

OF THE

CORPORATION OF THE CITY OF CAMBRIDGE

The property located at 42 Hopeton Street, due to its' architectural significance, is recommended for designation under Part IV of the Ontario Heritage Act, R.S.O., 1980, Chapter 337.

Constructed in 1884, the former home of John Hilford (a butcher/toolmaker) consists of two buildings, both having architecturally significant features. The principal residence is a two storey structure constructed of split granite fieldstone laid in broken course. The mortar has incised lines which are limed white. All of the walls are gabled with decorative bargeboard in each gable. Also of interest are two projecting bay windows with bracketed eaves and decorative moulding.

The outbuilding, formerly a stable, is the last known example of its' kind in Cambridge. It is likewise constructed of granite, roughly mortared, with one wall of boulder sized stone and the remaining three of smaller cobble sized stones. The roof is center gabled with a recessed arch window.

Hilford or Wilford ?

JAMES ANDERSON
CITY CLERK

THE CORPORATION OF THE CITY OF CAMBRIDGE

In the matter of the Ontario Heritage Act, R.S.O. 1980, Chapter 337, and in the matter of the lands and premises at the following municipal addresses, in the City of Cambridge, in the Regional Municipality of Waterloo and Province of Ontario.

NOTICE OF PASSING OF BY-LAWS

TAKE NOTICE that the Council of the Corporation of the City of Cambridge has passed By-law No. 22-86, 23-86 and 24-86, to designate the following properties as properties of architectural and historical interest under Part IV of the Ontario Heritage Act R.S.O. 1980, Chapter 337:

52 OAK STREET

Historically, the property is associated with three prominent Galt men: James MacKendrick, Plasterer, who built the original portion circa 1860, John Nobel MacKendrick, Insurance Company Director who enlarged it in 1908-09, and the Architect of those changes F.W. Mellish.

Architecturally, the original building, now the second storey, retains its treillage verandah, certain window features and roof. The 1908-09 changes were done in the picturesque vernacular style and gave the building its granite first storey and entrance way.

132 WALKER STREET

The house was built circa 1914 by contractor Oliver Gingrich for his client, Thomas E. Henry, a Hespeler grocer, in the style called picturesque vernacular. The red brick building is noted for its over hanging bell-cast type hip roof and dormers, leaded glass windows and other features that make it unique for its period.

42 HOPETON STREET

The house was built of granite stone circa 1884 for John Wilford, a Galt butcher. The building shows Italianate influence particularly on the south side and is noted for bargeboards, porches, bay window, and window arches. The stone stable building at rear is essentially as built and is now a rare building type in Cambridge.

DATED at the City of Cambridge this 7th day of February, 1986.
