SCHEDULE "A" TO BY-LAW NO. 91-57 (HO-1)

DESCRIPTION OF THE "MANOR HOUSE"

ALL AND SINGULAR THAT certain parcel or tract
of land and premises situate, lying and being in the
Town of Georgina in the Regional Municipality of York,
and being composed of Part of Block 53, Plan 69, and
identified as Roll No. 080-058 according to the
Assessment Rolls.

REASONS FOR DESIGNATION OF THE "MANOR HOUSE"

1. Architectural Reasons:

The Manor, built in 1846 by J. O'Brien Bouchier as his second home, is one of the finest pioneer homes in the Town. Two stories in height and built of brick, its symmetrical facade is surrounded by a low graceful veranda. It is built in the Loyalist Georgian style suitable for the village's most important citizen. The exterior is of classical proportions with a large brick kitchen wing and a wooden summer kitchen beyond. One of the two remaining bell towers in Georgina rises over the kitchen wing. The design results in excellent fenestration typical of the style including a period front door with sidelights and transom. The interior is a centre hall plan, the upper and lower hall casings, door hardware, baseboards and trim as well as much of the original wood flooring and interior window trim still remains.

Most of the original out buildings are gone but a very fine brick stable still stands intact and represents an excellent example of period style. The Manor remains in excellent condition in a picturesque setting within the heart of the old Village of Sutton situated on lovely manicured grounds which fittingly and purposely highlights and focuses attention of all passers by on the house and stable. In addition long associated with the property and forming part of the grounds were large mature Eastern Cottonwood trees of which one survives and continues to complement the property.

2. Historical

James O'Brien Bouchier, who built the Manor, was the founder of Bouchiers Mills which became the Village of Sutton in 1857. He was without a doubt the settlements leading citizen as well as a person of considerable influence in Upper Canada. He had been a midshipman in the British navy during the Napoleonic wars and came to Canada in 1814 to join his older brother Captain William Bouchier. His brother had received a grant from the Crown of 700 acres which included latter day Sutton, Jackson's Point, and other properties. James O'Brien Bouchier was made Justice of the Peace in 1829, built and owned the grist mill, saw mill and woolen mill. In the politics of Upper Canada of the day he was a staunch and loyal supporter of the Family Compact particularly during the rebellion of 1837. He was also Sutton's first postmaster and was active in establishing the first churches and schools in the area. His lineage dated back to John Bouchier, Earl of Essex and included in his ancestors is the Archbishop of Canterbury who crowned Richard III. When he died at home, in 1872, his prominence within the province was apparent by the fact that the flag over St. Lawrence Hall in Toronto was flown at half mast and his death was widely reported.
