Statement of Cultural Heritage Value or Interest

The dwelling at 268 Main Street West has some design value as a representation of the 1910s/20s style of late Edwardian architecture that can be found across Ontario. The Edwardian influence at 268 Main Street West can be seen in the two and a half storey square design, the hipped roof, three over one windows and the front facing dormer.

The dwelling at 268 Main Street West has historical value for the contribution that it makes to the understanding of development patterns along Main Street West.

The dwelling at 268 Main Street West has contextual value for its wider connections to the Town of Grimsby. Not only for its placement of land that could have been either belonging to the Petit Family or the Nixon Family of the original settlers of The Forty, but also for the Edwardian influenced architecture that brings context to other houses built in the 1910s and 1920s in Grimsby. The house would have been passed by the Hamilton Grimsby and Beamsville Electric Railway which operated a line across the north frontage of the property.
