Statement of Cultural Heritage Value or Interest

The Grimsby Park Gate on Phelps Avenue holds heritage value by being an historic civic gateway to the Grimsby Beach neighbourhood and a reminder of the enthusiastic community response to the Royal Visit of 1939. The particular cobblestone architectural style of civic monuments in Grimsby Beach and Grimsby Park (Grimsby Temple Monument, Fountain) are very unique and the Phelps Avenue Gates with their original wooden arched upper component would have been a picturesque gateway to the community and perfectly suited to the rustic cottage like atmosphere of Grimsby Park. The Tree Stand located to the north of the gates, combines with the gates structures to reinforce the wooded campground like feel of the former Grimsby Park.

Heritage Attributes

The following architectural attributes have been determined to contribute to the heritage value of the building and constitute part of the *Statement of Cultural Heritage Value or Interest* for Phelps Avenue:

- The cobble stone clad pillars;
- Marker commemorating the 1939 Royal Visit;
- Tree stand to the north of the gates; and
- Phelps Avenue roadway.
