SCHEDULE 'B'

REASONS FOR DESIGNATION

15 PARK STREET EAST

Historical Significance

15 Park Street E. was built in 1859-60 by Walter Chisholm, the first Town Clerk of Dundas. On his death his niece, Mrs. Peter Laing, inherited the property. The Laings were a prominent family and all of the six sons became important citizens of the town. Peter, Robert and George were successful grocers and built the Laing Block on King St. Dr. Edgar Laing was a dentist and Walter Laing played the organ for St. James Church until his death.

In 1903 the house was sold to Mr. and Mrs. James Beatty Grafton who converted it to a carriage house adjoining their property on Cross St. Mr. Grafton was one of the town's wealthy business men, employing some 400 people in his stores.

In 1927 the property was purchased by Mr. Tom Folkes who operated a riding academy from 1935 until 1978. He was caretaker and later vergier of St. James Church and a member of the choir. The present owners operate a pottery on the premises.

Architectural Significance

15 Park Street E. was once a beautiful 1 1/2 storey Georgian stone building. In 1903 it was converted to a coach house, giving the exterior an unusual but pleasing facade. At this time a 1 1/2 storey brick stable and hayloft was added to the rear, but the original living quarters on the second and third floors were retained. Of its Georgian characteristics it retains the low-pitched gabled roof with large bracketed eaves and two single symmetrically placed stone chimneys on the side walls. Three well-shaped rectangular windows on the second storey of the facade have plain stone lintels and lugsills with plain wood trim around 6/6 sash windows. The ground floor of the facade maintains the symmetry. The central door was cut away to allow access for the carriages and has a wooden porch shading it. The right window is now the entrance to the living quarters with a glass transom and a plain wooden door with glass panels. The left window remains intact. The carriage doors have been replaced with two sliding glass doors. The ground floor is currently used as a pottery show room. The right hand side of the stable has the original hayloft door and the hole above where a beam passed through to lift the hay to the second floor by rope and pulley. The rear window of the hayloft was converted to a door sometime after 1935 to give access to a porch and the rear yard. In 1993 the present owner built a small addition to the rear of the stable for his kilns, incorporating the porch and the door above. The rear door through which the horses were lead to pasture now provides access to this addition.

Features to be Designated

The surviving elements of the stone facade and side walls including the low-pitched gabled roof and chimneys and the original windows with their lintels and lugsills, but excluding the sliding glass doors and wooden porch.
