By-law No. 2006 – 007
Heritage Designation – 100 King Street

Schedule "B"

This house is one of the earliest structures in the Queen's Bush and predates the founding of Tiverton by some 20 years. The land on which the house sits was granted from the Crown in 1858 and the house must have been built shortly after.

The house is built of cedar and hemlock hand-hewn logs, some of which are 23 feet long and 26 inches square, all perfectly interlocking and fitted by hand. The logs had been hidden under clapboard for many years. The foundation is built of local fieldstone and forms a sill that is about 6 inches wider than the logs resting upon it, both inside and out. In 150 years, the house has not settled one centimeter.
