SCHEDULE "A"

To By-law No. L.S.P.-3256-101

Part Lot 10, according to Registered Plan 328 as in Instrument No. 543202 in the City of London and County of Middlesex being all of PIN 08363-0083.

SCHEDULE "B"

To By-law No. L.S.P.-3256-101

286 High Street (east side, between Base Line Road and Chester Street)

Historical Reasons

This lot was severed in 1875 and the house was built c. 1880 for Lyman and Jane Odell. The house is a remnant of the hamlet of Odells Corners. John Odell, the founder of the Westminster branch of the family was born in New York State in 1758. He first moved to Quebec in 1785, and later to Ontario with his sons John and Albert in 1811. He and his descendants were important early pioneers in Westminster Township.

Architectural Reasons

This typical vernacular building was probably built using white bricks from the Nathan Griffiths brickyard which was on the nearby Brick Street (Commissioners Road). The house has a multiple gabled roof with front and side gable ends highlighted with decorative carved vergeboard and bargeboards. The window in the front facade is arched with a stained glass transom which matches the rectangular transom over the front door. The front and side doors are matching, carved oak doors. The large porch is a later addition and may have been built by Karl Purdy, a woodworker who lived in the house from 1902 to 1929. He is believed to have initiated many of the interior renovations in the 1920's. The house once had a wood shingled roof.
