SCHEDULE "A"

#6 WATER STREET NORTH - THE M & M BUILDING

- (A) This building is one of the finest limestone blocks built in St. Marys. William Veal Hutton, a prominent early citizen and mayor of the Town, was the first owner. Originally, this block, which housed two separate stores on the lower block, which housed two separate stores on the lower level, and office space on the upper level, was only two stories high. A further two storey rear wing was added along Water Street sometime after 1880. The third storey, Mansard level was added to the block between 1882 and 1885. Two further, one-storey sections have since been applied to the rear of the block.
- The site of this store may be also significant. This could well be where the first general store of St. Marys existed, a log structure built by John Ingersoll in 1841.
- The original frame panelling of the store front windows and doors and the other wooden decorative features of this remarkably well-preserved facade are ample reason for its designation. Furthermore, this building is the best example of the Second Empire Style in St. Marys. This Style, which is very rare in Town, is typified by the sloping Mansard roof line with the decorative slate tiling and the boldly projecting, pedimental dormers which light the third storey.
- (B) FIREPLACE - The fireplace on the second floor, which is intact and probably dates from the time that the original two storey block was built (1852-1857) is also included in this designation. It is a very fine, simple, classic design of the period.
