## SCHEDULE A

### THE OPERA HOUSE - THE HUTTON BLOCK - THE ARMOURY

#### Reasons for Designation:

##### THE OPERA HOUSE

Designed by Messrs. Weekes and Smyth Architects of London, Ontario the building was constructed in 1879 - 1880 for the local Oddfellows Lodge.

This impressive building in the French Gothic style, with turrets and tall lancet windows is also remarkable for the fancy cut stone used in its construction. The exterior of the building is well preserved and the store-fronts on the street level are original with their wooden framing and cast-iron supports.

##### THE HUTTON BLOCK (PRICE GUARD)

Built in 1863 this block with a ten bay facade originally housed five retail stores.

This building (as well as the Armouries following) with its segmental arches (above the windows and their finely finished voussoirs and projecting keystones give an Italianate flavour to these structures.

The similar, simplified treatment of these flanking buildings provides a very effective foil for the exuberance of the Opera House facade.

##### THE ARMOURY

Built in 1868 as a retail store (see above Hutton Block for description).

Together these three buildings present one of the most outstanding stone streetscapes in the Town.
