## Notice of Passing of Heritage Designation By-law 6743/107/19 for 380 King Street.

In the matter of the *Ontario Heritage Act* and in the matter of the lands in the City of Port Colborne, municipally known as 380 King Street.

Notice is hereby given that the City of Port Colborne passed By-law 6743/107/19, which amends the designation by-law of 380 King Street as a property of architectural and historical value or interest.

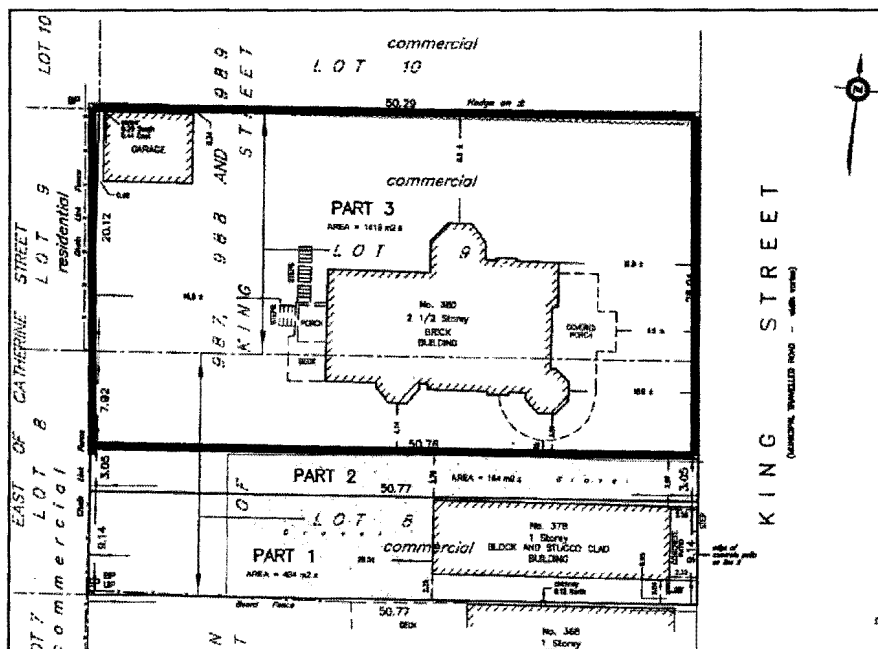

A Description of the Property, Statement of Cultural Heritage Value or Interest, and a Legal Description of the Lands to which the by-law applies are attached.

### Purpose of Amendments

By-law 2831/10/93 was enacted in 1993 to designate 380 King Street as a property of architectural and historical value or interest. The owner has requested the removal of heritage designation from Part 2 of the lands affected by Committee of Adjustment decision B15-19-PC. Part 3 of the property will remain under heritage designation.

Additionally, the Heritage Act requires the City to pass further amendments that will update the By-law to satisfy new *Heritage Act* requirements that came into effect in 2005. For that reason, the City of Port Colborne replaced the "Reasons for Designation" section of the By-law with a new "Statement of Significance" that more clearly describes the protected heritage attributes of the property.

### Description of Property

 - Property subject to amending by-law

The property at 380 King Street is located on the west side of King Street, north of Delhi Street. The amending by-law is in reference to Part 3 shown on the sketch above.

## **Legal Description:**

Lot 9 and the adjacent 7.92 metres of Lot 8 on the Merritt Survey, now known as Plan 987, 988 and 989, City of Port Colborne, Regional Municipality of Niagara.

Through the consent process, the legal description will change to recognize the merging of Parts 1 and 2 shown above. Part 3 will retain its heritage designation while Part 2 will be removed.

## **Statement of Cultural Heritage Value or Interest**

### *Design/Physical Value:*

The house is the only example in Port Colborne of the Romanesque Revival style in both shape (broken wall lines, bay windows, and tower), and in the choice of materials. This includes the dark red brick, heavy cut stone lintels and sills, and the unglazed terra cotta tiles set just below the eaves.

The large verandah, with its field stone wall and raised ribbon mortar joints is derived from the Queen Anne period. The general shape of the verandah, especially the circular portion surrounding the octagonal tower is very typical of that style, as are the simple rounded wooden pillars.

The truncated hip roof, with its several dormers, was covered with red painted galvanized steel tiles (rectangular on the main roof, and file scales on the tower), three dimensional sheet metal cresting and the ornament surmounting the tower roof (incorporating a six pointed star). Of special note are the triangular dormers and windows in the tower roof.

Two other distinctive features of the house are: one, the wide rounded arch window on the first floor, with its etched leaded glass, and two, the triangular multi-paned window of the attic, with its diagonal muntins.

Interior features of note include the ornate wood trim and doors with egg and dart motif and/or inset leaded glass, the wooden archway with classical columns located in the waiting room at the north east corner of the first floor, the fireplace located in the same room, and ornate plaster cover moldings. The interior egg and dart motif reflects the pattern of the exterior terra cotta tiles.

### *Contextual Value:*

The property is part of a parcel of land that at one time belonged to William Hamilton Merritt. In 1907 Thomas Euphronius Reeb (a member of the Reeb family, one of the earliest families to settle this area) purchased the land and erected the present building. In 1941 John Horne Jr. a well-known developer and councillor purchased the property and converted the building into a series of apartments, for a time occupied by teachers at the local school, and later by the Red Cross.

### *Cultural Heritage Attributes:*

Important to the conservation of 380 King Street are the following cultural heritage attributes:

#### **Exterior:**
