REASONS FOR DESIGNATION

Statement of Cultural Heritage Value or Interest

The stone wall is believed to be of early construction, however a specific date or builder is not known. The remains of the wall appear to be in the style of the early walls, but the remaining wall would not appear to be at the full original height.

Description of Property

The 4000 Front Road walls run a distance of 23 feet in a north/south direction from the shoreline to a tall stone retaining wall. The wall varies in height from one to seven courses high with some stones toppled and covered by vegetation.

FEATURES NOT TO BE COVERED BY THE DESIGNATION:

The designation does not extend to any other stone walls or any other structures on the property other than the stone wall specifically described and does not include the stone retaining wall immediately south of and perpendicular to the wall described.
