SCHEDULE A**STATEMENT OF SIGNIFICANCE
REASONS FOR DESIGNATION
150 LAIRD DRIVE**Reasons for Designation

The property at 150 Laird Drive is worthy of designation under Part IV, Section 29 of the Ontario Heritage Act for its cultural heritage value and meets the criteria stated in Ontario Regulation 9/06 under the three categories of design, associative and contextual values.

Description

The former Durant Motors of Canada, Ltd. office headquarters at 150 Laird Drive is located at the west side of Laird Drive between Markham Avenue and McRae Drive. Built in 1928, the building is a two-storey office building with a flat roof, clad in brick with cast stone details. The property was listed on the Heritage Register in 2007.

Statement of Cultural Heritage Value

The (former) Durant Motors of Canada, Ltd. building has design value as a fine representative of the Late Gothic Revival style typical in the first thirty years of the twentieth century in Canada. However, it is rare in its application for an automobile headquarters building in Toronto. Its design value is further evident in the high degree of both craftsmanship and artistic merit. These qualities are seen in the composition of the building and the articulation of its form with a regular series of window bays separated by buttress-like piers, the decorative Gothic elements and cast-stone details and the brick patterning.

The property has an associative value for its direct association with the evolution of the industrial development of Leaside following World War I and in particular with the Canadian automobile industry, as represented by Durant Motors of Canada, Ltd. and Dominion Motors Ltd., between World War I and II.

The building has contextual value as it is important in defining, maintaining and supporting the character of the Post World War I Town of Leaside as it grew from a railway junction to an independent town. Built in 1928, it is physically, functionally, visually and historically linked with its surrounding on Laird Drive. Its setback and landscaped setting, fine architectural form, details and scale make it an important landmark and a significant contributor to the character of the neighbourhood today.
