Both the lumber and tourism industries were vital to the evolution of the community

and the station, as the primary extant feature from the railway period, provides information on the role of the railway in their establishment and growth.

Contextual Value

6697 Highway 35 has contextual value as an local landmark in Coboconk and the surrounding area, as well as part of the surviving historic landscape of the village. The property is an important community landmark from its original constructed as the train station in the village to its evolution to community centre and planned redevelopment. The property is historically related to the wider historic landscape of Coboconk dating from the mid-nineteenth century and supports the historic small town character of the community. It has wider significance as part of the broader railway landscape in the northern part of Kawartha Lakes where it has historic connections to other extant stations, infrastructure and engineering works.
