SCHEDULE A

AMENDED REASONS FOR DESIGNATION

The property at 18 Harrison Garden Boulevard is designated under Part IV of the *Ontario Heritage Act* for its cultural resource value or interest. Elihu Pease was a schoolteacher prior to 1834 when he established a tannery in Lansing (present-day Yonge Street and Sheppard Avenue) and constructed a frame house. Joseph Bales acquired the property in the late 19th century and updated the residence in the Gothic Revival style. In 1921, members of the Bales family purportedly relocated the main body of the house to the property at 34 Avondale Road, adding brick veneer and modifying the fenestration. In May 2004, the Elihu Pease House was moved a short distance southwest to the property at 18 Harrison Garden Boulevard.

The Elihu Pease House is historically significant for its association with an important figure in the early history of North York. Architecturally, the Elihu Pease House is a surviving 19th century residence that was updated to incorporate Gothic Revival and Arts and Crafts features.

The heritage attributes of the Elihu Pease House are found on the exterior walls, roof and interior. Rising 1½ stories, the house is constructed of wood, clad with red brick, and trimmed with stucco, brick and stone. The house is covered by a gable roof with extended eaves, a moulded cornice and, on the principal façade, a central gable (the chimneys have been removed). The front gable and gable ends display carved bargeboard. The principal façade is symmetrically organized into three bays with a central entrance. A panelled wood door is set in a wood doorcase with mouldings. The three-quarter-length sidelights and flat transom contain diamond-paned glass. The entrance is flanked by single window openings with brick voussoirs, stone sills and louvered wood shutters. Three-part diamond-patterned sash windows are inset in the openings. A flat-headed window opening containing casement windows is positioned in the half-storey. The side walls have stucco cladding in the half-storey above the brick veneer and display four flat-headed window openings with brick voussoirs and stone sills. Each pair of openings in the first floor contains four-over-four sash windows, while those in the upper storey are reduced in height with four-over-two sash windows.

On the interior, the entrance hall and flanking parlour and dining room on the first floor are included in the Reasons for Designation. The detailing in these rooms reflects the changes made to the property in the 1920s. The wood floors, baseboards, window surrounds and sills, panelled doors, and door surrounds and casings are significant features. The wood staircase with Arts and Crafts styling in the entrance hall and the brick fireplace in the parlour are important interior elements.
