## **Schedule “B”**

### **Statement of Cultural Heritage Value or Interest**

19 Mosley Street is of Cultural Heritage Value or Interest based on its design and physical value, historical and associative value, and contextual value.

#### **Design and Physical Value:**

The property is a representative example of an early Gothic style cottage that was originally built in 1866. The upper level of the 1.5 storey building is a unique historic conversion that features a high pitched roof and center gable, distinguishing this property as part of the Gothic style. A high degree of craftsmanship is displayed through the bargeboard trim detailing, 3-bay façade with framed sidelights, transom, pilasters, and entablature, the 19<sup>th</sup> century wood frame windows, as well as through the brick voussoirs and sills which are visible from the public realm via the front, east and west elevations. The building is a rare and well-preserved example of Gothic building on a street that is predominately composed of Edwardian and Georgian architecture, making it highly unique as part of the streetscape and character of the neighbourhood.

#### **Historical and Associative Value:**

The building was constructed circa 1866, over 155 years ago and prior to the Confederation of Canada in 1867. The building and date of construction specifically represents a unique period in history of the British colonial era in Canada ending and Confederation and the post-Confederation era beginning. The property was also owned by a prominent local family – the Lundy family - with Sylvester Lundy, who also served as Town Clerk, and the family being the historic owners, publishers and editors of the local Aurora Banner newspaper. The newspaper was under the ownership of the Lundy family for over 70 years and is recognized as one of Canada’s oldest regularly published newspapers.

#### **Contextual Value:**

The property defines, maintains and supports the historic character of the Aurora downtown and Town Park Southeast Old Aurora neighbourhood. The building provides a significant link to the early growth and development of the area and its early history, specifically since the building is a unique character element of the streetscape and can be considered a landmark feature based on its rare Gothic style for the area.

### **Description of Heritage Attributes**

The following provides a description of heritage attributes for the property which contribute to the reasons for which the property is of Cultural Heritage Value or Interest. Important to the preservation of the property are the original key attributes of the building that express its value, which include:

#### **Exterior Elements**

- Overall 1.5 storey scale and massing of brick construction
- Side gabled roof and front elevation with a steeply pitched roofline
- Front elevation 3-bay façade, with central entrance, sidelights and transom light, pilasters, and entablature

- All original and gently arched windows and door openings, complete with brick voussoirs and sills that are visible from the public realm
