3. **THAT** the Statement of Cultural Heritage Value or Interest and description of heritage attributes is as follows:

**Statement of Cultural Heritage Value or Interest**

The subject property demonstrates design/physical and contextual values. The subject property demonstrates design/physical value given that it includes a representative example of a dwelling constructed in the Barrie Vernacular architectural style. This architectural style is unique to Barrie and includes features indicative of the Victorian, Queen Anne, and Edwardian architectural styles. The property demonstrates contextual value as the building is important in supporting the existing character of Dunlop Street West. Here, the character is varied and includes a mix of 19<sup>th</sup> century single-detached dwellings as well as contemporary new development. The north side of Dunlop Street West continues to include late 19<sup>th</sup> to early 20<sup>th</sup> century residential dwellings between Boys Street and Frances Street North.

**Description of Heritage Attributes**

Two-storey red brick single-detached dwelling fronting Dunlop Street West. that includes the following attributes:

- Overall L-shaped plan, two-storey scale and massing with hip and gable roofline, including deep cornices and all "attic" gables;
- Bullnose bricks around the base of the building, above the foundation;
- All original window and door openings, including all brick voussoirs and drip molds at the east, south (front) and west elevations;
- South (front) elevation projecting bay with parlour window opening at the first storey, including transom;

- Original stained glass window in the parlour window transom;
- Large window at the second storey of the projecting bay at the south (front) elevation;
- Off-set front entrance (door opening) as well as secondary front entrance at the south/east elevation;
- Single storey veranda at the south and east elevations;

- "Boys Street" road sign attached to the west elevation; and
- East elevation projection with gable, including existing original window openings at the first and second storey with brick voussoirs and drip molds.

Note that the existing two-storey rear addition with front-end gable is not identified as a heritage attribute. Also note that the majority of existing materials of the front veranda are not original. However, a veranda should continue to be provided at the south and east elevations using designs which are in keeping with the architectural style.
