NOTICE OF INTENTION TO DESIGNATE AS A HERITAGE PROPERTY

Take notice that the Council of The Corporation of the Town of Whitby intends to designate the property described below, as a property of cultural heritage value or interest under Part IV of the Ontario Heritage Act, R.S.O. 1990.

740 Columbus Road West

Is generally located on the north side of Columbus Road West, between Country Lane and Cochrane Street, near the village of Brooklin.

Refer to attached General Location Sketch.

Reason for Designation

The property meets two or more of the criteria for determining that it is of cultural heritage value or interest under Ontario Regulation 9/06. Council has authorized proceeding with the process to designate the property under Part IV of the Ontario Heritage Act.

Statement of Cultural Heritage Value and Interest

The property has design or physical value because it is a representative example of a mid-nineteenth century Southern Ontario farm complex, as expressed through its collection of buildings and landscape features. Its components include a c. 1862-69 farmhouse, a c. 1880s bank barn, silo, entrance drive, creek, and agricultural fields. The organization of the site with the farmhouse set far back from, and oriented to face the concession road and accessed via a long entrance drive that continues to the barn and silo located behind the house is representative of the site layout and arrangement of buildings and functional work areas that would have been typical on nineteenth century farm complexes.

The property has contextual value because it maintains and supports the historical agricultural character of the area. The property retains its agricultural lands, barn, silo, and farmhouse; and it is currently actively used as a farm. The location and setback of the residence and barns on the subject property retain legibility and visibility from the public road right-of-way as a typical nineteenth-century farmstead in Whitby.

Description of Heritage Attributes

Attributes related to its agricultural property as a nineteenth-century farm complex are comprised of:

- The cottage/farmhouse constructed c. 1862-69.
- The location, orientation and massing of the farmhouse
- The fieldstone foundation.
- The two-over-two wooden sash windows.
- The side gable roof.
- The centre gable with flat-headed window
