SCHEDULE B
STATEMENT OF CULTURAL HERITAGE VALUE OR INTEREST
11-15 Pandora Avenue North, KITCHENER

Description of Cultural Heritage Resource

11-15 Pandora Avenue North is a two-storey 19th-century building. The building is constructed in the Italianate architectural style. The building is situated on a 0.18-acre parcel of land located on the east side of Pandora Avenue North between Duke Street East and King Street East in the King East Planning Community of the City of Kitchener within the Region of Waterloo. The principal resource that contributes to the heritage value is the residential building.

Heritage Value

11-15 Pandora Avenue North is recognized for its design/physical and historical / associative values.

Design/Physical Value

The design and physical value relate to the building and the Italianate architectural style. The building has many intact original elements in good condition. Features that represent the Italianate architectural style include: asymmetrical plan in a modified L-shape; two storey height plus attic; truncated hip roof with cross gables; central hip roof that leads to the clerestory windows; moulded fascia, plain cornice, and panelled frieze with paired brackets; a segmentally arched door on the south elevation features two elongated windows with etched bevelled lites and wood panelling as well as a decorative hood crown; projecting centre bay on west elevation with bay window; 1.5 storey addition (original use was the servant quarters); double (suspected) yellow brick construction; corner brick quoins; segmentally hung wood windows with decorative hood crowns, or brick voussoirs, and stone sills; and, rubble stone foundation.

Front (West) Façade

The current front of the building faces Pandora Avenue North. The building generally depicts an asymmetrical plan in a modified L-shape. The truncated hip roof features cross gables that contribute to the modified L-shape plan. The central hip roof leads to the rooftop clerestory windows. The roofline features moulded fascia, plain cornice, and panelled frieze with decorative paired brackets.

The front gable projects out and features a one-storey bay window on the main floor. The bay window displays a hip roof with decorative brackets and panelled frieze. Each bay contains an 8-pane segmentally arched wood window with brick voussoirs and stone sills. A group of two segmentally arched 4/4 wood windows with decorative hood crowns and stone sills is featured on the second storey. A circular wood window with a decorative hood crown is in the upper gable end. The corners of the projecting front gable display brick quoins.

The modified L-shape features one bay with a hipped roof with a moulded fascia, plain cornice, and panelled frieze with decorative paired brackets. The first storey contains a wraparound porch constructed circa 2009-2011, which does not detract from the Italianate

A 1.5-storey side-gable addition, originally the 'servants quarters' is located on the north side of the projecting front gable. This addition was built as early as 1924. The yellow brick elevation facing Pandora Avenue North is setback approximately 3 metres from the projecting front gable. This elevation demonstrates a simple design with no ornate details. One four-pane segmentally arched wood window with stone sill is located on the upper half storey. A 1-storey addition, in front of the 1.5-storey side-gable addition, features a simple design with a shed roof, painted vertical board siding (possibly board and batten), a new front door, and three 1/1 windows.

Side (North) Façade

The north façade was originally the rear of the house. This elevation features the 1.5 storey side gable addition that originally served as the 'servant's quarters.' This addition was built as early as 1924. This elevation demonstrates a simple design with no ornate details. A chimney stack is visible on the hip roof of the main building.

Side (South) Façade

The original front of the building faced King Street East. At present, this façade faces a vacant lot municipally addressed as 656 King Street East. The building's roof is cross gabled with a central hip roof leading to the rooftop clerestory windows. The roofline features moulded fascia, plain cornice, and paneled frieze with decorative paired brackets.

The side gable projects out and features a group of two segmentally arched 4/4 wood windows with decorative hood crowns and stone sills on both the first and second storey. A circular wood window with a decorative hood crown is in the upper gable end. The corners of the projecting front gable display brick quoins.

The recessed bay to the left of the projecting side gable features the main entrance to the building with a wraparound porch constructed circa 2009-2011, which does not detract from the Italianate architectural style. The single segmentally arched door with decorative hood crown features two elongated windows with etched and bevelled lite and wood paneling below on the first storey. A group of two segmentally arched 4/4 wood windows with decorative hood crowns and stone sills is featured on the second storey. The corners of the projecting side gable display brick quoins.

Rear (East) Facade

The current rear elevation was originally the east side elevation. At present, the east elevation is not visible from the public realm. According to a 1996 Local Architectural Conservancy Advisory Committee Heritage Property Report (Bensason, 1996), this elevation consisted of three bays. The left bay contained a bricked-in segmentally arched window opening. Dividing the left and centre bay was a chimney projection that ended at the fascia. The centre bay displayed a segmentally arched 1/1 wood window followed by a pair of segmentally arched 4/4 wood windows on the first storey. The second storey displayed a segmentally arched 1/1 wood window followed by a pair of segmentally arched 1/1 wood windows. The third bay contained an entrance porch with door that projects from the main structure, and a 4/4 wood window. The upper half storey contained a 1/1 segmentally arched wood window. These heritage attributes may still exist.

Bensason (1996) also identified notable interior heritage attributes including: a flying wood

historical/associative value due to history and association with early settlement; prominent pioneer Mennonite families – the Ebys and the Erbs – including Bishop Benjamin Eby, Rev. Moses Erb, and Menno Erb; and early industries including Erb & Co. Glove Works, Brown & Erb, and the Huck Glove Company Limited (Bensason, 1996).

Bishop Benjamin Eby and his wife Marie (nee Brubacher) bought Lot 2, G.C.T. when they came to Canada in 1807. The first building on the property was a log house that stood west of the First Mennonite Church where Bishop Eby was a spiritual leader, teacher and first preacher. By 1830, he had built a frame house. A fine lawn surrounded the frame house with a spacious verandah between the house and King Street. There was also a large barn and a cider mill operated by Ely Eby, son of Bishop Eby (Stroh, 1931). Over the years, Bishop Eby and his descendants sold off parcels of Lot 2.

One parcel of Lot 2 was purchased by Rev. Moses Erb in 1862 from the executors of Rev. Christian Erb, son of Bishop Eby. Moses Erb was born in Waterloo County in 1821. He was an ordained Mennonite minister for the Martin and Bloomingdale fields of labour. He married Susannah Rosenberger in 1841 and they moved to the “Bishop Eby Farm” in 1860 when he was placed on the Berlin Circuit. They moved along with their children Menno, Aaron, and Moses.

The oldest son of Rev. Erb and Susannah was Menno Erb (b. 1842, d. 1906). He married Lydia Bricker and together they had four children – Malinda, Ephraim, Maggie and Edward. Menno became a large landowner when he bought the “Bishop Eby Farm” from his father in 1867. He continued to operate the cider mill, with a large orchard being located between the farm buildings and the Mennonite Meeting House and cemetery (Stroh, 1931). The Berliner Journal of October 31, 1878 noted that “*Menno Erb had built for \$2500 on King Street end of town, a two storey brick house in the Italianate style.*” The house originally faced King Street (264 King Street).

Menno Erb was the head of M. Erb & Co. Glove Works on King Street and the largest shareholder in Erb Glove. He was also in partnership with C.F. Brown – ‘Brown & Erb’ – one of the finest and most prominent furniture houses in the country. In the 1860s, Brown & Erb commenced the manufacture of gloves. Menno Erb was a member of the Town Council in 1868 and 1871. Menno Erb and his family sold the building in 1881 when they moved to the corner of Foundry (Ontario) and Weber Streets. After his death in 1906 a foreman, Joseph Huck, bought Brown & Erb and established the Huck Glove Company Limited. And the furniture business became Quality Mattress located at 87 King Street West.

Over the years the house was owned by various families including, but not limited to, Moses Betzner, Samuel Brubacher, Bennie Persin, Henry Knell William Smyth, Carl Pritschau, Christian Huehn, James Bowers, Joseph Payne, Charles Miehm, Milton Huehn, and Ivan & Doris Gascho.
