REASONS FOR DESIGNATION

256-258 MacNAB STREET NORTH, HAMILTON, ONTARIO

256-258 MacNab Street North represent the two centre units of a 6-unit, 2 1/2 storey brick rowhouse built in 1879-80. Located two blocks south of the Custom House between Murray and Barton Streets, this outstanding Victorian terrace is a well-integrated component of the late nineteenth and early twentieth century residential area surrounding St. Mary's Church. The unusual design and flamboyant character of the MacNab Street North terrace, however, sets it apart from its neighbours and from other Victorian rowhouses in the City.

Designed by the noted Hamilton architect, James Balfour, the terrace at 252-262 MacNab Street North is one-of-a-kind in this city. Its brick masonry construction, gabled bays and segmentally arched windows were characteristic of rowhouses built in Hamilton from the 1880s through the 1910s. Its highly ornate square wooden bays decorated with bracketed cornices separating the first and second floor windows and pilasters framing the tall paired windows, however, appear to have been inspired by the all-wood Italianate houses and rowhouses built in San Francisco and other west and east coast American cities throughout the 1870s. The charm and uniqueness of the MacNab terrace derives from Balfour's skilful blending of forms and details borrowed from two quite distinct vernacular row housing traditions. The first two floors of the wooden bays, strikingly similar in design to San Francisco Italianate houses, are crowned by steep-pitched gables decorated with bargeboard, a typical High Victorian Gothic feature characteristic of 1880s row housing in Hamilton. The roofline is also punctuated by steep gabled dormers. The roofs and railings of the porches set between the square bays do not appear to have been part of Balfour's original design. A distinguishing feature of the centre two units is the carriage entrance which separates them at the ground floor level and visually divides the terrace into two 3-bay segments.

Historically, the row is important for its association with Henry J. Larkin, a barrister and developer who built the fine Renaissance Revival commercial block on James Street North known as Treble Hall (originally Larkin Hall), also designed by James Balfour and built in 1879. The MacNab Street North terrace was owned by the Larkin family until 1889 and remained under single ownership until it was subdivided amongst five owners in 1942. Since this time the centre two units, which are connected at the second storey, have been jointly owned.

Of particular importance to the preservation of 256-258 MacNab Street North is the street facade, including the carriage entrance, the ornate wooden bays, the dormers, bargeboard, original doorways and windows, and roofs and chimneys (but excluding the later porch additions).
