SCHEDULE "B"

REASONS FOR DESIGNATION

HISTORICAL SIGNIFICANCE

The Collins Hotel was built in 1841 by Bernard Collins, who had arrived in Dundas from Ireland in 1833. It remained in family ownership until 1913. In its early days it was used for township meetings including at least one of the meetings leading to the Town's incorporation. The Collins family were outstanding citizens who made their mark in politics, sports and community affairs. Their Hotel served as headquarters for the Conservative Party, and the gallery, framed by its four white columns, was the setting for many 19th century political gatherings. The Collins has operated as a Hotel at least until 1968 and still houses a tavern.

## ARCHITECTURAL SIGNIFICANCE

Architecturally the building is somewhat of a hybrid. Originally it was a two-and-one half storey front gable brick building with an asymmetric facade. Two windows flank the main entrance to each side and a second entrance (the tavern door) is off to the right. On the upper floor the facade is the same configuration, but the second door has been replaced by a window. In the 1850's the building acquired the existing impressive Neo-classic portico with massive Doric Columns, a classical frieze and balcony with unusual double tapered balusters. In the 1880's a mansard roof and dormers were added - typical of the Second Empire Style popular in Canada at the time. The 1920's saw the main door eliminated in favour of two side doors, this being reversed again in the 1980's. Other 19 century changes included the facing of the ground floor level with an imitation stone surfacing and the replacing of the doors and windows at this level, but not altering the actual openings in any way. However, none of these later changes are considered to be irreparable.

The area to be designated is the front facade including all nineteenth century features, i.e. the ground floor window and door openings, the second floor door and windows, the balcony, columns and architrave, the mansard roof and dormers, but excluding the facing of the ground floor and the modern windows and doors on the first and third floors.

EXPLANATION OF THE PURPOSE AND EFFECT OF BY-LAW NO. 4168-94

This By-law which designates the front facade of the dwelling, municipally known as 33 King Street West, to be of historic or architectural value or interest has been enacted as a result of the Conservation Review Board's recommendation of approval.

The designation of the front facade of 33 King Street West, Collins Hotel, specifically includes all nineteenth Century features, i.e. the ground floor window and door openings, the second floor door and windows, the balcony, columns and architrave, the mansard roof and dormers, but excluding the facing of the ground floor and the modern windows and door on the first and third floors.

The designation of the above features helps to protect the features of architectural and historical significance. Should the owner wish to alter these designated features, approval from Council must be obtained.
