Reasons for Designation**239 Hill Street****Architectural Reasons**

This simple one storey, side hall plan, white brick cottage was built circa 1885. The lot slopes rapidly at the rear of the building and consequently the rear of the building is a storey and a half. Original windows and storms are found throughout the house. The two front windows have very high, attractive vousssoirs. The paired wood front doors are in the Eastlake style with a transom above. Originally, the medium hipped roof had wood shingles.

Historical Reasons

It is believed that a carpenter named William Grasby built the house. Thomas Tremaine is believed to be the original owner.

____ I/We hereby approve the above Reasons and consent to the Heritage Designation of the subject property.

____ I/We wish to amend the above Reasons as follows and consent to the Heritage Designation of the subject property.
