SCHEDULE "B" TO BY-LAW 2008-57

REASONS FOR PROPOSED DESIGNATION

The Stickwood Brickyard and the Wetlands located on the north side of Srigley Street, just east of an unopened road allowance (Charlotte Street) is significant for architectural and historical reasons.

The Stickwood Brickyard and the Wetlands located on the north side of Srigley Street, just east of an unopened road allowance (Charlotte Street) is significant for cultural heritage value or interest because it was part of a thriving brick manufacturing property that served a local need, in that after particularly disastrous fires destroyed much of the Main Street in the 1860's and 1870's the Town Council decreed by by-law that future buildings were to be constructed of brick.

In addition, the Wetlands, located on the higher ground closer to the northern boundary limit, are ecologically important and worthy of preservation because of the small grove of self propagating walnut trees and three bur (white) oak trees between 150 to 200 years old.
