SCHEDULE 'A' TO BY-LAW NUMBER 44-91

THE MILTON FIERHELLER HOUSE

The Fierheller house is a 1-1/2 storey, three by two bay home built in the Gothic Revival style of architecture. Sheathed in painted stretcher bond brick with radiating voussoirs, the structure has been relocated onto a concrete block foundation faced with fieldstone veneer. It is rectangular in plan, covered by a medium pitch gable roof. The asymmetric double gable on the front facade is probably attributable to a subsequent addition to the north elevation. Two lancet windows with plain wood trim inside the structural opening are located in the front gables. Other windows are double hung with two over two pane division and plain wood trim inside the structural opening.
