REASON FOR DESIGNATION

Architectural Design or Physical Value:

The building's architecture is noteworthy, with a single storey canted bay, first and second storey segmental windows with raised brick lintels and bracketed cut stone sills. On the third storey, these features are mirrored in the two arched windows. The beautifully crafted double arched leaded glass doors, complemented by a leaded glass arched transom accentuate the home's main entrance. A small two storey porch has replaced the original verandah. On the second storey entrance, there is a double door with a shuttered transom. The home also boasts corner quoins, a four double stacked chimney and the west and south gables that have maintained their original molding with decorative finials. The rear side entrance features a charming multi-paned arched window which lights the second floor landing.
