Being a By-law to designate 704 Fingerboard Road, Little Britain, City of Kawartha Lakes, as being of cultural heritage value and interest.

Description of Property

The Salem-Mariposa United Church is located in the Northwest corner of the intersection of Fingerboard Road and Salem Road.

Legal Description:

CON 6 PT LOT 6

PIN: 63189-0108

REASON FOR DESIGNATION

Architectural Design or Physical Value:

This simple church is defined by predominantly Gothic features and Italianate brickwork which were popular during the time of its construction. The lancet doors and windows accentuate the building. Although three of the eight windows have been broken, their shape and the decorative buff brick work which frames the windows remain. A set of French paneled doors are set within a Lancet frame on the front façade. One of the most notable attributes of this property is the brickwork set on a fieldstone foundation. The red brick walls are accented with Gothic style arched windows peaked with ornate red and buff brick lintels and limestone sills, buff brick corner quoins and cornice trim.

Historical Significance:

Once the focal point of the community, this church is currently sitting in its original place from when it was constructed over 100 years ago. The Methodist Church first appeared in Salem in the years of 1883-1884. Church services for this religious community were previously held in a log chapel before the decision to build a new church was made in February 1885. The community immediately worked to build the new Salem-Mariposa United Church. Before the New Year, church services were being held in the new building. The land where the current church stands was sold for \$60.00 by a Mrs. Isabella McInnes. Building costs of \$1800.00 were within the budget set out by the church. Cost savings were possible as a result of help from local carpenter Hiram Brown and mason John Pearce. The church underwent interior improvements from 1897-1919 and the outside of the church was renovated in 1910. This church has been closed since 1965.

ATTRIBUTES TO BE CONSERVED:

- The stone foundation
- Decorative buff brickwork on the corner quoins and in the segmental arch found above the windows. This brickwork is also apparent in columns

between the church windows, in a double cross shape apparent on the church's south facing side that extends in the cornice and along the peaks of the roof

- Gothic arched windows peaked with ornate red and buff brick lintels and limestone sills
- Buff brick corner quoins and cornice trim
- White brackets that are patterned along the soffits that surrounds the entire building
- Four lancet windows on the sides of the church
- A recessed entrance featuring a wooden lancet paneled door
