SCHEDULE 'B' to BY-LAW NO. 002-2020

Legal Description

Lot 126, Plan 20M-1209, Town of Milton, Regional Municipality of Halton in the Town of Milton.

Description of Property

The original house was built by an Irish immigrant, farmer, merchant, and devout Methodist Joseph Bowes Sr. sometime between 1825 and 1827. Bowes House is a storey-and-a-half vernacular farmhouse originally situated between Regional Road 25 and Sixteen Mile Creek on the former East Half Lot 7, Concession 3, Trafalgar Township, now part of the Town of Milton. As part of the conservation plan, the building was relocated in 2018 to its present location at 1335 Basswood Crescent.

Statement of Cultural Heritage Value and Interest

The Bowes House is an excellent representative example of vernacular mid-Victorian domestic architecture. It is worthy of designation under Part IV of the Ontario Heritage Act for its cultural heritage value. It meets the criteria for municipal designation under the three categories of design or physical value, historical or associative value, and contextual value.

Design Value of Physical Value

The Bowes House has a design or physical value as an early example of vernacular, timber-frame construction, it has the "L" shape configuration that became very popular in the mid to late nineteenth century. Its arched gable windows may have included detailing to emphasize its peak and its relationship to the then-popular Gothic Revival style of architecture. Most of the window and door openings are original. The bay and arched windows, as well as the front entrance doors, are also unique. Almost all of the original exterior form of this house and many of its original internal features remain. Of particular note are the high quality of the interior millwork and the rare 18 inch wide floor-boards

Historical Value

It has historical or associative value for its association with the establishment of Methodism in Trafalgar Township, and as the second oldest known residence in the Town of Milton. Renowned Upper Canadian Methodist minister and community leader Anson Green is believed to have preached in the house, and Joseph Bowes Sr. was instrumental in the founding of a church and cemetery for the congregation, which still stands on the lot he severed and carries his name: the Bowes Presbyterian Church.

Contextual Value

The property's contextual value lies with the physical and historical connections between the house and existing Bowes Presbyterian Church, and the preserved rural and natural heritage setting of Sixteen Mile Creek. Although late 20th century alterations and extensions compromised its heritage integrity, the main block of the Bowes House retains its early 19th-century vernacular character, and its current form reflects the structure's continuous evolution and adaptation over a nearly 200-year period. The preservation of this property at its relocated position continues to remind us of this important contextual relationship.

Character Defining Elements/Heritage Attributes

Important to the preservation of the Bowes House at 1335 Basswood Crescent are the following exterior and interior character-defining elements/heritage attributes:

1. One-and-a-half storey massing;
2. Low gable roof;
3. Squared log timber framing, some of which is exposed to the interior;
4. Asymmetrical fenestration with six-over-six and twelve-over-twelve light wood windows;
5. 18 inch wide wood floor-boards and plaster finishes on the second level of the main block; and
6. Five paneled 'Greek Revival' doors in the main house.
