SCHEDULE A

Statement of Cultural Heritage Value or Interest

The rural property known municipally as 17923 Shaws Creek Road contains a late 19th century, stone farmhouse. The farmhouse was built in 1886 for William Pinkney, the son of John Pinkney. The family emigrated from Yorkshire, England, and arrived in the mid-1830s among the early settlers in Caledon Township. The William Pinkney family owned this property from 1874 to 1997.

The farmhouse is a 1.5 storey, Gothic Revival style structure in a T-plan with a rectangular, one storey, stone, rear addition. Its 3-bay (centre doorway with flanking window openings) front facade faces west to Shaws Creek Road. The side enclosures are single storey and also stone. The design of the window and door lintels and the rectangular form of the bay windows suggest some Italianate style influence. It features a medium to high pitched cross gable roof, with deep eaves, and pointed gables decorated with wood inserts (bargeboard).

The farmhouse is constructed of a mix of cut stone and rubblestone that is given a uniform appearance by the application of raised, tooled mortar imitating coursed, squared stone throughout. It utilizes Credit Valley rubblestone and large dimension, cut (squared) natural limestone ranging in colour from dark to light grey, light brown, and red. The window and door openings and corners of the structure have quoining (surrounds) of large dimension stones. The foundation appears to be rubblestone. This structure displays a high degree of technical competency and craftsmanship in stone construction. Of particular design or physical value is its use of stone for the rear and side additions, a rare feature and one exemplifying the cultural roots and prosperity of the Pinkney's.

The farmhouse is accessed by a tree-lined, U-shaped laneway on the north side of the farmhouse. A row of mature deciduous and coniferous trees south of the farmhouse screens it from the Elora-Cataract Trailway.

This property is one of several associated with the Pinkney family within Concessions 5 and 6, West Hurontario Street, Caledon Township. Of these, the 1886 farmhouse is the oldest. As a well-designed, solid stone structure, the farmhouse must have immediately become a landmark for area residents and those passing nearby on the train. Being now adjacent to the Elora-Cataract Trailway, the landmark status of this property has been retained.
