Description of Property

The property at 46 Bruce Street is located on the north side of Bruce Street, between Cynthia Street and Teresa Street in London, Ontario. The property is located within the Wortley Village-Old South Heritage Conservation District.

SCHEDULE "B"

To By-law No. L.S.P.-3494-381

Statement of Cultural Heritage Value or Interest

The property at 46 Bruce Street is of significant cultural heritage value or interest because of its physical/design value and its contextual value.

The property at 46 Bruce Street includes a representative example of a one-and-a-half storey Queen Anne Revival style, side hall plan cottage. The Queen Anne Revival architectural style is demonstrated in the detailing of the cottage at 46 Bruce Street. In particular, the masonry detailing on the front façade, and the ornate wood detailing in the entryway and gable demonstrate the intricate detailing and various materials, shapes, and textures that are characteristic of the Queen Anne Revival style. The buff brick is accentuated with two string courses of rusticated buff brick; one extending from the spring point of the voussoirs, and the second extending horizontally below the dwelling's front window sill, both embellishments on the dwelling's south façade. The rusticated buff brick is also applied in an alternating pattern forming the voussoirs of the arched front window.

The dwelling's roof consists of a hipped roof form, with a projecting front gable, allowing for the decoration to emphasize the Queen Anne Revival architectural style of the cottage. The face of the gable includes a concentration of decorative wood details, including carved wood corbels and brackets, a pair of windows separated by a mullion painted wood shingle imbrication, and applied linear and round medallion detailing in the bargeboard. The gable peak also features an arrangement of medallion details applied in a diamond shape, flanked by two wooden inverse sunbursts.

The detailed woodwork on the dwelling extends to the fenestration on the building's south (main) façade which includes a large front window with an arched stained glass window. The sash separating the fixed window from the arched stained glass includes elegant dentil details that are also replicated in the trim of the doorway. The doorway includes a set of double-leaf wood panel doors, with a rectangular transom, including a stained-glass window which includes a floral-inspired design, similar to the design of the arched front window. The stained-glass design above the doors, incorporates the municipal address "46" into the centre of its design.

Though likely added as an early-20th century alteration, the front porch of the dwelling is compatible with the style and vintage of the dwelling. The shallow shed style porch roof is supported by tapered square posts, on rusticated concrete block plinths. The railing system consists of a curved top rail and vertically arranged wood planks with carved circular and foliage-like detailing. The railing system, a more recent alteration consists of a curved top rail and vertically arranged wood planks with carved circular and foliage-like detailing. Though not a historical design, the painted wood material, proportions, and design are compatible with the dwelling.

Contextually, the property at 46 Bruce Street is included within the Wortley Village-Old South Heritage Conservation District characteristic of the area. The *Wortley Village-Old South Heritage Conservation District Plan and Guidelines* identifies the architectural character as being "established by the recurrent use of consistent building materials, forms and detail in the majority of properties in the HCD". In addition, the Plan notes that the "design details that embellish the exterior of the landmark buildings are repeated, sometimes in less grand scale, in the house." As a well-executed example of a Queen Anne Revival cottage, consistent in materials and stylistic details, the property is important in supporting and maintain the character of the Wortley Village-Old South Heritage Conservation District.

Further, the property is visually and historically linked to its surroundings. In particular, the dwelling on the adjacent property at 44 Bruce Street is of a different style but features the same use of rusticated buff brick for its string courses, and similar wood detailing in the gables of the dwellings. The style and details can be found elsewhere on properties of a similar architectural style and age on Bruce Street and Askin Street.
