Attention: Ms. Nancy Smith

Dear Ms. Smith:

Further to your telephone conversation with Heather Broadbent, please find enclosed the Notice of Intention to Designate for the three designations which are presently in the process, (Stinson-Courtney, Kidd-Williamson and Boston Mills Cemetery).

Also, please find enclosed, the final correspondence to the owners, By-law Number 89-23 and the Notice of Intention to Designate for the five designations we have just completed.

In the past, we have only sent the Foundation a copy of the two letters to the owners which officially advise them of Council's intention to designate and notify them of the completion of the designation. Henceforth, we will send you a copy of this correspondence, as well as the Notice of Intention to Designate and the final By-law. I have also enclosed a copy of By-law Number 87-239 and 88-102, containing those designations which have been completed in the past fourteen months.

If you require anything further, please let me know.

Yours truly,

Reasons for Proposed Designations

- (1) Robinson-Schafer House  
This two-storey, mid-Victorian brick structure features decorative polychromatic brickwork and is distinctive with its three projecting frontispieces. It was built about 1875 for Dr. Charles Robinson, a respected doctor, local coroner and prominent citizen in the Village of Claude.
- (2) Dick-Caslor-Maloney House  
This one and a half storey frame building was probably built by Alexander Dick about 1850. It was the millowner's home before Hiram Caslor built his larger house. It was later a saddlers shop. This building features a symmetrical three-bay front facade with central door and small-pane, double-hung windows, typical of early buildings.
- (3) Maxwell-Haney House  
This symmetrical three-bay, one and a half storey, red brick structure features a modest Greek-Revival doorway with wooden pilasters and entablature. It was built by William Maxwell about 1850. The Maxwells were a prominent early family in the area.

(4) Farrell-Haney House

This renovated log house was originally built by the Farrell family in the 1840s. The last Farrell was the legendary Thomas, whose skill with the grafting of apple trees is still evident on older trees here and in the general area.

(5) Donohue-Barnes-Lyndon House

This one and a half storey, three-bay log house with a central door flanked by small-pane, double-hung windows, is representative of the homes built by this area's early settlers. It was built by the Donohue family about 1840 and features a very compatible modern addition designed by the Ontario restoration architect, the late Bruce Napier Simpson Jr.

ANY PERSON may, within thirty days of the first publication of this notice, send by registered mail or deliver to the Clerk of the Town of Caledon notice of his or her objection to the proposed designation, together with a statement of the reasons for the objection and all relevant facts. When a Notice of Objection is received, the Council of the Corporation of the Town of Caledon shall refer the matter to the Conservation Review Board for a hearing and report.
