STATEMENT OF SIGNIFICANCE

Description of Property – Featherstone Parkette, 307 Ironside Drive

The Featherstone Parkette property is known municipally as 307 Ironside Drive. It is a town-owned park in north Oakville located on the north side of Ironside Drive, east of George Savage Avenue and north of North Park Boulevard. The property contains a shade structure constructed out of remnants of the historic Featherstone barn, previously located at 145 Burnhamthorpe Road West.

Statement of Cultural Heritage Value or Interest

Design Value or Physical Value

The Featherstone Park is considered to have cultural heritage value for the salvaged materials used in the construction of the shade structure. These materials are remnants of a representative example of a late 19th century bank barn. Originally located on the Featherstone family farm on the southern half of Lot 17, Concession 2 NDS, the barn was likely built in the late 19th century under John and Marion Featherstone's ownership. The gable-roofed barn had a 3 bay by 3 bay plan with two circular hoists in the centre bay to provide a mechanism for lifting hay to the upper level. The framing was of sawn lumber, combined with hand-hewn timbers salvaged from earlier barns. The foundation walls were constructed of local lake stone and the walls were clad in painted vertical barn board. Typical of bank barns, the upper level contained an open space for straw and hay storage and a granary, and the lower level contained stables and pens for the livestock.

Historical Value or Associative Value

The salvaged materials in the shade structure are also considered to have historical and associative value because they are directly associated with the Featherstone family, a well-known farming family in Trafalgar Township. The Featherstones farmed the land on Lot 17 from 1844 until the early 21st century. In addition to farming the land, they set up a sawmill and cut and sold lumber on the property.

William Featherstone, who owned the farm from 1899 to 1934, served as Mayor of Oakville, local councillor and as Worshipful Master of the Oakville Masonic Lodge.

Description of Heritage Attributes

Key attributes of the property which embody the cultural heritage value of the Featherstone Parkette include the following attributes, as they relate to the shade structure:

- Stone used in the construction of the north wall; and
- Wood barnboard used in the construction of the roof.
