Schedule “A”

Description of Property

All and singular those certain parcels or tracts of land and premises situate, lying and being in the Town of Aurora, in the Regional Municipality of York, municipally known as 50 Tyler Street, and being composed of PT Lot 1 Plan 30, PT 1 65R34850 together with an easement over PT LT 1 PL 30, PT 4 65R34850 as in YR2143815, being all of PIN 03652-0146 (LT), including the primary building thereon.

Schedule "B"

Statement of Cultural Heritage Value or Interest

50 Tyler Street is of Cultural Heritage Value or Interest based on its design and physical value, historical and associative value, and contextual value.

Design and Physical Value:

The property is a representative example of a 2.5 storey dwelling constructed in the Queen Anne architectural style. The building is a rare and unique example of the style in Aurora, and features a high degree of design detail and craftsmanship, particularly through the pyramid hipped and gable roofline, large curved verandah with support columns and decorative trim, front elevation bay windows with larger central parlour style windows, the second storey open balcony as well as the rusticated stone sills and brick voussoirs. The building is a rare and well-preserved example of the architectural style with exceptional design detail and character.

Historical and Associative Value:

The building was constructed circa 1913, in the early 20th century. The land was originally part of a 210 acre lot granted to William Tyler in 1805. Thomas Caster purchased the property in 1909, and then sold it in 1913 to Albert A. Conover, a local speculator, who began construction on the dwelling. Albert A. Conover sold the property to Rolph Case, a local butcher, in 1927. By 1985, the property served as the home to the Rose of Sharon Services for Young Mothers of York Region, a charitable organization providing support and educational services to prenatal and parenting young women in the community. The property helps contribute to our understanding of the development of the Town, but is also recognized in its association with a number of important civic uses over time.

Contextual Value:

The property defines, maintains and supports the historic character of the Aurora downtown area and neighbourhood around the former tannery. The building and its orientation on Tyler Street provides a significant link to the early growth and development of the community. The building is also prominently set upon a hill, making it a distinguishable and easily recognizable landmark. The building is highly important as a rare and unique architectural style in Town that is adjacent to a number of other historically significant properties and contributes to our understanding of Aurora's second wave of residential development prior to World War I.

Description of Heritage Attributes

The following provides a description of heritage attributes for the property which contribute to the reasons for which the property is of Cultural Heritage Value or Interest. Important to the preservation of the property are the original key attributes of the building that express its value, which include:

Exterior Elements

- Overall 2.5 storey construction with combination pyramid hipped and gable roofline, with deep eaves and attic gables at the front, east and west elevations
