SCHEDULE "B"

TO BY-LAW NO. 11 - 87

OF THE

CORPORATION OF THE CITY OF CAMBRIDGE

HISTORICAL

The subject building is a well preserved example of a two storey commercial premises, circa 1900. Built by George E. Chapman as a store and post office, it succeeded the building constructed next door for the same purpose by his father John Chapman in about 1870.

ARCHITECTURAL

The Romanesque Revival building, whose sides and rear are of yellow brick, features a main facade of dark red brick with four round arched windows topped with decorative brickwork. At ground floor level there are two large round arched shop windows and two round arched transomed entrances. There is a frieze of decorative brickwork at the roofline and a denticulated roof cornice with corbels.

Although the positions of one door and window have been reversed, the change is virtually undetectable, and the facade one of the closest to original appearance of any in downtown Hespeler.

A more detailed description of the architectural features of the building can be found in the LACAC Building Description dated August 1982 (revised 1986).

REASONS FOR DESIGNATION

1. It is a well preserved example and illustration of the City's social and economic development history.
2. It is a good, well preserved example of its architectural style and period (Romanesque Revival).
3. It makes an important contribution to the urban composition and streetscape of which it forms a part.
