### STATEMENT OF SIGNIFICANCE

#### Henry and Annetta Clarry House

7822 Highway 7 East

The Henry and Annetta Clarry House is recommended for designation under Part IV, Section 29, of the Ontario Heritage Act as a property of cultural heritage value or interest, as described in the following Statement of Significance.

#### Description of Property

The Henry and Annetta Clarry House is a frame bungalow on the north side of Highway 7, within the hamlet of Locust Hill.

#### Design and Physical Value

The Henry and Annetta Clarry House has design and physical value as it displays a high-degree of artistic merit as a representative example of a Craftsman Bungalow of frame construction, exhibiting design elements typical of the American Arts and Crafts Movement. It is particularly significant for its superb state of preservation, retaining its original exterior character as represented in an archival photograph dated 1909.

#### Historical and Associative Value

The Henry and Annetta Clarry House has historical and associative value as it represents the theme of early twentieth century development of the hamlet of Locust Hill and the theme of early settlers and descendants and their continued influence in the development of their community. This is the former home of Henry J. Clarry and Annetta (Pike) Clarry, descendants of the Clarry family which settled in Markham in the early 1800s. Henry Clarry was the son of William Clarry and Jane Lorena (Reynolds) Clarry. In the 1911 census his occupation was given as "commercial traveller", meaning a travelling salesman. Since his brother Frederick was the owner and operator of the Maple Leaf Woolen Mill in Markham Village, it is possible that Henry Clarry was a salesman for that industry's products. This early twentieth century bungalow was built on a parcel of land on Lot 11, Concession 10 purchased from John A. E. Reesor in 1908. The Clarry family owned the property until 1922. Subsequent owners maintained the house in close to original condition.

#### Contextual Value

The Henry and Annetta Clarry House has contextual value as one of a group of late nineteenth to early twentieth century of buildings that are important in defining, maintaining and supporting the historic character and extent of the hamlet of Locust Hill.

#### Significant Architectural Attributes to be Conserved

Character-defining attributes that embody the cultural heritage value of the Henry and Annetta Clarry House are organized by their respective Ontario Regulation 9/06, as amended, criteria below:

*Heritage attributes that convey the property's design and physical value as a well-crafted and representative example of a Craftsman Bungalow style of the American Arts and Crafts Movement, and a locally rare example of wood frame construction for its style and time period:*

- The form of the dwelling, including its rectangular plan with its projecting conservatory on the east wall and one-and-a-half storey height;
- Foundation of moulded concrete block;
- Narrow wood clapboard siding with corner boards and water table;

- Shingled gable end walls and wood gable ornamentation in the apex of the front gable;
- Medium pitched gable roof with open eaves and exposed purlins and rafter ends and shed roofed dormer;
- Cutaway porch supported on grouped plain wood posts resting on brick pedestals capped with concrete or limestone copings;
- Square wood lattice at the base of the porch;
- Single-leafed wood front door with multi-paned glazing in its upper portion;

- Three-part wood window in the front gable end wall;
- Four-paned wood windows in the conservatory and dormer;
- Exterior fireplace chimney of riverstone and red brick.

*Heritage attributes that convey the property's historical and associative value as a significant part of the early twentieth century development of the hamlet of Locust Hill:*

- The dwelling is a tangible reminder of Henry and Annetta Clarry that historically resided here and who were responsible for the building of the house c.1908.

*Heritage attributes that convey the property's contextual value as a building that helps define the extent of the historic hamlet of Locust Hill:*

- The siting of the dwelling its prominence and unobstructed visibility from Highway 7 East.

*Attributes of the property that are not considered to be of significant cultural heritage value:*

- Frame accessory building in the rear yard.
