**STATEMENT OF CULTURAL HERITAGE VALUE OR INTEREST AND DESCRIPTION OF
HERITAGE ATTRIBUTES**

Short Statement of Cultural Heritage Value or Interest:

The property located at 843 Watson Rd S, Arkell, possesses significant cultural heritage value due to its association with the educational and social history of the Arkell area. This value is retained in the extant 1862 stone schoolhouse on the property. This building represents the efforts of the board of School Section 1 to provide public elementary education to the local community. The schoolhouse was constructed in 1862 using building plans published by the Ontario Department of Education in the mid-nineteenth century as a guide. The property's architectural value lies in the exceptional craftsmanship shown in the interpretation of these building plans. The schoolhouse served the community of Arkell and surrounding farms that comprised School Section 1 for a century as a place for elementary education and social events. It is in close proximity to other recognized heritage buildings in Arkell. Given its pivotal role in the history of Puslinch, both the property and its schoolhouse hold the status of a landmark. The property meets the requirements for designation prescribed by the Province of Ontario under the three categories of design/physical value, historical/associative value, and contextual value. The property is listed on the Township of Puslinch Municipal Heritage Register and has received a plaque from the Township's Heritage Committee for its cultural heritage value.

Design Value:

The property includes the earliest extant school in Puslinch Township: an 1862 stone schoolhouse solidly constructed in coursed fieldstone and dolomite limestone. The building features elements representative of mid-nineteenth century Ontario schoolhouse design: front gable roof, single-storey rectangular form, large straight rectangular window fenestrations on the side walls and a front facade with two entrances: one for girls and one for boys. Notable attributes include the very large Romanesque window with a carved limestone surround in the centre of the front facade, entrance fenestrations with heavy limestone surrounds, large limestone quoins, and stone soldier lintels and stone sills on window fenestrations. Under the front gable is a carved datestone "1862" and below another inscribed carved stone inscribed "SCHOOL SECTION NO. 1". The original bell and a reproduced belfry are on the roof.

Historical or Associative Value:

As Puslinch was settled, it was divided into twelve school sections (SS). The residents of each section built their own school, which not only represented and defined the geographic community but also became a venue for community activities. This property, situated at Part Lot 7, Rear Concession 9, formed an initial land purchase agreement for a "common school" dated November 29th, 1850. The designated land served for the construction of a schoolhouse, and James Hower from the Township and Province of Canada was compensated one pound and five shillings. Trustees for the project included James Hower, Adam Hume, John Iles, and Joseph Dory. Replacing two log structures dated around 1839 and 1850, the present stone schoolhouse was constructed in 1862. It was in use as an educational and community facility for a century after which schooling became centralised, and the schoolhouse redundant.

Contextual Value:

The property is surrounded by several other heritage properties, along Watson and Arkell Rd in the Arkell area. These residences, including the John Caulfield, John Isles, Jr., and Thomas Arkell houses, among many others, played a significant role in shaping and establishing this part of Puslinch. In addition, the property is also in close proximity to the George Nichol Blacksmith Shop. The purpose-built 1875 stone school's teacherage is located directly beside the schoolhouse, demonstrating the importance of the school's educational role in the community. The property holds the status of a landmark due to its architecture and rich social history within
