Introduction and Description of Property

Mrs. Dawson's Tavern, located at 101 and 103 Logan Street is located on the north side of Logan Street, on the northwest side of the intersection between Logan and Yonge streets, in Portsmouth Village in the City of Kingston. Spanning two separate properties, Mrs. Dawson's Tavern consists of a two-storey limestone double house. The building, designed by William Coverdale, was constructed in 1856 for Frances Dawson as a tavern; later additions were added to the rear of building in 2001 (101) and 1998 (103).

Statement of Cultural Heritage Value/Statement of Significance

The property has design value or physical value because it is a rare, unique, representative or early example of a style, type, expression, material or construction method.

Mrs. Dawson's Tavern is a representative example of a modest and restrained mid-19th-century Regency style residence with little ornamentation. The Regency style (1820-1860) is best known for its central entranceways, flanking large windows and hipped roof with twin chimneys. Unfortunately, the chimneys have been removed, but Mrs. Dawson's Tavern retains its original roof design and fenestration pattern with smooth stone sill and voussoirs. The first storey has centrally placed twin doorways flanked by larger rectangular windows. The second floor contains four windows all in line with the ground floor openings, in the balanced symmetrical arrangement typical of the Regency style. The limestone masonry on the façade is hammer-dressed and laid in even courses, with no quoining or decorative features, and is uncoursed on the side elevations. The front porch was added in the early 20th century.

The location of the building provides maximum visual effect and best possible views to and from the water, a typical feature of the Regency style. Mrs. Dawson's Tavern was strategically located at a prominent and highly visible location at the bend in Yonge Street, which provided direct views to the water, and possibly helped to attract patrons entering by ship.

The property has historical value or associative value because it demonstrates or reflects the work or ideas of an architect, artist, builder, designer or theorist who is significant to a community.

Mrs. Dawson's Tavern has historical/associative value through its association with local architect William Coverdale. William Coverdale moved to Kingston in 1832-3 and was hired as the Master Builder for Kingston Penitentiary in 1834, which was already under construction. Coverdale was a prolific and well-known architect in the Kingston area and beyond. His designs, while varied, appear to be largely based on symmetry and stability, resulting in sturdy and visually balanced structures. Some of his most prominent downtown Kingston landmarks include the north gates of Kingston Penitentiary, the Rockwood Asylum, and St. James and Sydenham Street Churches. Coverdale was also responsible for a number of grand residential buildings in the area, such as Rosemount (Sydenham Street), Elmhurst (Centre Street), Lake View (Beverley Street), Eldon Hall (Portsmouth Ave) and St. Helen's (King Street West).

While William Coverdale is well known for his large dominating and influential buildings, perhaps less is known of his more modest and simpler designs. Mrs. Dawson's Tavern is an example of Coverdale's work on a modest building and in a style not typically associated with Coverdale (Regency). Mrs. Dawson's Tavern is a rare surviving example of Coverdale's interpretation of the Regency Style in a prominently sited modest commercial/residential building.

Frances Dawson, a tavern keeper, hired William Coverdale to design this double house in 1856. It appears that its use as a tavern was short lived as the 1859 assessment indicates that Mrs. Dawson was renting the building to William Kennedy and William McDonald and their families. By 1863 the building was sold to James Morton.

The property has contextual value because it is important in defining, maintaining or supporting the character of an area.

The property has contextual value because it is physically, functionally, visually or historically linked to its surroundings.

The property located at 101-103 Logan Street maintains the character of the area through its limestone construction and two-storey massing; features that are visible in residential and commercial properties along Logan and Yonge Streets as well as throughout the former village of Portsmouth. In particular, the properties' shallow setback, regular fenestration pattern, limestone construction, age and prominent location at Yonge and Logan streets, Mrs. Dawson's Tavern demonstrates a visual and historical relationship with its surroundings, particularly the houses at 107 Logan Street and 61

Yonge Street. As part of this group of buildings, Mrs. Dawson's Tavern helps define the historic limestone character of this portion of Portsmouth Village.

Heritage Attributes

Key exterior elements that contribute to the property's cultural heritage value include its:

- Two-storey, four-bay massing with low pitched hip roof;
- Coursed (on the front/south façade) and uncoursed (on the side elevations), squared and hammer-dressed limestone construction; and
- Regular pattern of window and door openings on the south and east elevations with stone voussoirs and stone window sills.
