REASONS FOR DESIGNATION

Description of Property

The property at 46 Mill Street East is located along the south side of the roadway in Halton Hills in the community of Acton, Ontario and contains a one-and-a-half storey brick residential building with rear addition.

Statement of Cultural Heritage Value or Interest

The property at 46 Mill Street East has physical and design value as a representative example of a vernacular Gothic Revival building. The existing composition, although modified from its original configuration, reflects the original division of the front elevation into two bays at grade. The materials, as well as the scale, form, and massing of the building reflects the characteristics typical of the style, along with the extant side gable roof, centre gable with window beneath the gable peak, round-arched and segmentally arched window openings. The building, constructed for both commercial and residential use, is a unique interpretation of the style within the community of Acton.

The property at 46 Mill Street East has historical and associative value due to its associations with Thomas Perryman, a local stone mason and plasterer who built the first brick home in Acton and who also worked on two different Methodist churches in the community. Agnes and Sarah Perryman, Thomas’ daughters, operated their business at the first storey of the home while caring for their elderly father. The building was also briefly home to the first branch of the Merchant’s Bank in Acton. The property is also associated with long-term local barber Harry Mainprize and his wife Martha, a teacher and prominent community member. The existing building has been used for both residential and commercial purposes since its construction c.1895.

The property at 46 Mill Street East has contextual value as it serves to help define, maintain, and support the character of the area in its original location at the intersection of Mill Street East and John Street South in the community of Acton. The existing building is physically, functionally, visually, and historically linked to its surroundings, with photographic evidence demonstrating its continued presence at this corner despite changes along Mill Street East, including the adjacent former YMCA building next door. The existing building has formed an important part of the built evolution and growth of the Acton community for over 128 years.
