Schedule "A"
Description and Criteria for Designation
Henley Cameron House

Civic Address: 37 Kennedy Street
Legal Description: Part Lot 1 S/S Union St & N/S Kennedy St Plan 54 Kingston City as in FR150913; City of Kingston, County of Frontenac
Property Roll Number: 1011 070 130 16600

Introduction and Description of Property

The Henley Cameron House at 37 Kennedy Street is located on the north side of the street, at the northwest corner with Yonge Street in the Village of Portsmouth, now City of Kingston. This approximately 358 square metre residential property contains a two-storey vernacular frame house constructed circa 1847 for Joseph Henely and altered in the 1850s by carpenter Alexander Cameron.

Statement of Cultural Heritage Value/Statement of Significance

The property has design value or physical value because it is a rare, unique, representative or early example of a style, type, expression, material or construction method.

The Henley Cameron House is a representative example of a mid-19th century one-and-a-half storey wood frame Georgian cottage. Typical of the Georgian style is the side gable roof and a central unadorned entranceway, flanked by symmetrically placed windows. While this building has been modified and restored several times, its profile, massing and fenestration pattern still retain a strong Georgian character. The vinyl siding, while a modern intervention, is reminiscent of the original wooden clapboard siding.

The house was built for Joseph Henley around 1847, who then sold it to Alexander Cameron in 1855. Cameron was a Scottish emigrant and carpenter. He added several embellishments to this restrained Georgian house, including the lacy gingerbread (vergeboard) on the east and west end gables and the one storey bay window on Yonge Street, in 1879. The bay window once included elaborate vertical molding as well as paneling below the windows, and a frieze of recessed ovals with applied flower ornaments above the windows. The decorative cornice with dentils is extant.

The property has contextual value because it is important in defining, maintaining or supporting the character of an area.

The former Village of Portsmouth has a distinct heritage character, consisting of a historic village atmosphere, and a variety of built heritage resources including frame and stone dwellings from the 19th century. With its distinct Georgian design and corner location with frontage onto Yonge Street (once Main Street), the Henley Cameron House helps define and maintain the historic village character of Portsmouth.

Heritage Attributes

Key exterior elements that contribute to the property's cultural heritage value include its:

- Two-storey dwelling of wood frame construction with a limestone foundation;
- Side gable roof with decorative vergeboard at each gable end;
- Symmetrical front façade with central entranceway and rectangular window openings;
- One storey bay window on east elevation, with dentilled cornice; and
- Visibility and legibility of its heritage attributes from the road.
