NOTICE OF INTENT TO DESIGNATE UNDER THE ONTARIO HERITAGE ACT

Re: Notice of Intent to Designate 5670 Steeles Avenue West pursuant to Part IV, Section 29 of the *Ontario Heritage Act*.

INTENT TO DESIGNATE UNDER THE *ONTARIO HERITAGE ACT*

Please take notice that the Council of the Corporation of the City of Vaughan intends to designate for reasons of cultural heritage value or interest, pursuant to Part IV, Section 29 of the *Ontario Heritage Act* the property municipally known as **5670 Steeles Avenue West** in the City of Vaughan, in the Province of Ontario.

REASONS FOR PROPOSED DESIGNATION

5670 Steeles Avenue West is a pre-Confederation, 2-storey Georgian style red brick house (presently clad in stucco). Built between 1850-1870 it retains a symmetrical style that easily identifies the Georgian architectural style. Noted modest decorative details of its construction include red brick patterned corners as attention to detail. Although changes have been made to meet the needs and aesthetic taste of several homeowners over the years, the structure maintains its connection to Georgian style with the addition of the columned verandah.

The property is associated with William Hartman, who served as Deputy Reeve of Vaughan, and also participated Vaughan Agricultural events. 5670 Steeles Avenue West is also connected to other early settler and farming families in Vaughan: The Kellam's and the McKinnon's. The structure has the potential to yield information that contributes to the understanding of a community through the property's farming operations over the years. This would include mix farming. The property was also used as a pony farm.

The subject property located at 5670 Steeles is historically linked to its surrounding and is a longstanding feature. Located on the north side of Steeles Avenue west, the structure is setback on the lot surrounded by mature trees, with a long driveway leading up to the building. This maintains the characteristics of farmhouse settings and traces of the farming economy during the 19th and early 20th century farm cultural landscape. This building reflects the hard work and contributions of the farming families that lived on the property.
