**STATEMENT OF CULTURAL HERITAGE VALUE OR INTEREST AND DESCRIPTION OF
HERITAGE ATTRIBUTES**

The property at 8 Brock Road North, Puslinch, meets the requirements for designation prescribed by the Province of Ontario under the three categories of design/physical value, historical/associative value, and contextual value. Constructed c. 1860 this two-storey stone structure was built as a blacksmith shop and later accommodated a wagon and carriage shop on its upper floor. The building provided blacksmith services for Puslinch into the twentieth century. It is a landmark on the Aberfoyle Brock Road streetscape.

Design Value:

8 Brock Road North is a large vernacular two-storey side-gabled fieldstone structure, built as a blacksmith's shop C.1860, and later renovated to incorporate a carriage-making and repair shop on the upper floor. These functional uses are reflected in the extant architecture; notably a wide central entrance on the front facade with paired windows at each side of the entrance used for a blacksmith shop. The rear of the building has a banked elevation designed to allow carriages into and out of the upper floor for construction and repair for a carriage making business. This function is evident in the extant foundation. The front facade has three original window fenestrations with replacement sash windows on the upper storey. Two original window fenestrations are under each side gable on the upper storey. Window and door fenestrations feature stone voussoirs and sills. The rear exterior of the building has undergone modern renovation and expansion.

Historical/ Associative Value:

The origin and evolution of this building is directly associated with the changing technology and commerce of the Township. Blacksmiths were essential services in the Township's villages during the 1800s and early 1900s and formed either the primary industry or were one of the core industries of the community. These craft industries were gradually subsumed by foundries. Likewise wagon and carriage making and repair was essential in a 19th century farming community. Presently the building is a custom home interiors and design store for the Puslinch and area community, reflecting recent residential expansion on former agricultural lands.

Records indicate the building was constructed circa 1860 by Alex McKenzie. Originally intended as a blacksmith shop, the property was operated as such by the Bickley family for a number of years and later by Walter Warren. By the 1880s the upstairs of the building had been repurposed for Mr. Hugh Campbell, who operated a wagon and carriage shop. In order to accommodate the construction and movement of wagons, significant renovations were carried out, including the addition of large double doors and windows, as well as raising the ground level at the back of the building.

In 1896, James Mason converted the former carriage shop into a residence for his family. The building continued to be used primarily as a residence for the next century. The property now houses a home interiors business and in 2005 a large addition was built adjacent to the south side and rear of the original building for this purpose.

Contextual Value:

The building holds a prominent position on Brock Rd and serves as a significant landmark at a major crossroad in the Township.
