Statement of Cultural Heritage Value or Interest

180 Main Street is a representative example of a building constructed in the Gothic Revival architectural style. The two-storey, L-shaped building, with cross-gable roof has large gable ends, a prominent front gable, and smaller steeply pitched front gable peak, which is typical of Gothic Revival buildings. The expression of dichromatic design through the ornamental brickwork is conveyed in the diamond motifs found in the gable peaks, the design patterns on the bay window, and the painted quoins, which are all representative of Gothic Revival design.

The segmentally arched window openings, including the paired openings in the front gable, have ornate voussoirs creating a hood mould effect, which is accentuated by the painted brickwork which showcase the Italianate influences on the Gothic design. The one-storey porch with segmentally arched door opening and decorative surrounds located on the asymmetrical but balanced façade are representative of the Gothic Revival architecture style.
