Reasons for Designation

Description of Property

5113 Brock Road (Claremont) is located on the east side of Brock Road. The property is located at the northeastern edge of the former Village of Claremont, Pickering.

Reason for Designation

Built in 1916, 5113 Brock Road (Claremont) is valued as a fine representative example of an early-twentieth century American Foursquare farmhouse. This is expressed through its square plan, two-storey scale, hipped roof, and varied design details, including the wrap-around verandah with its two-storey frontispiece.

5113 Brock Road (Claremont) has historical and associative value for its direct association with G.M. Forsyth, a historically significant municipal leader and farmer in Claremont. Forsyth held many major offices in Pickering Township and the Village of Claremont throughout his political career, culminating in his appointment as Warden of Ontario County in 1923. During his term as Reeve of Pickering Township, he was instrumental in bringing hydroelectric power to Claremont. This association is expressed through the grandeur of the farmhouse and its estate-style landscape treatment.

5113 Brock Road (Claremont) has contextual value for defining, maintaining, and supporting a rural character along Brock Road in Claremont. Sited on the northern edge of the village, the property's agricultural landscape forms the backdrop to the late-nineteenth-century village fabric. Additionally, the property is considered a local landmark in Claremont.
