Statement of Cultural Heritage Value or Interest

The James Willison Grout Nelles House is a good example of the Queen Anne style of architecture. The dwellings proportions and decorative elements demonstrate the influence of the Queen Anne style of architecture.

The dwelling has a direct correlation with the Nelles family who were prominent in Grimsby. The Nelles family has a long history in Grimsby dating back to the settlement of this West Niagara town.

The James Willison Grout Nelles House is of contextual value for supporting the character of Main Street East. The dwelling and landscape contribute to the wooded built character along the Main Street. The setback of the dwelling provides evidence of the development patterns along Main Street that typically had large farm houses with large front yard setbacks from the street.

The house is one of a series of larger nineteenth and early twentieth Century homes running along Main Street in Grimsby which were associated with the fruit farming industry. The size and quality of architectural detail of many of these houses is a testament to the prosperity brought to the area by fruit farming.

The trees around the property contribute to the wooded character of Main Street East, and the largest mature tree at the southwest corner of the property demonstrates the age of the settlement.
