## REASONS FOR DESIGNATION

109 George Street,

Hamilton, Ontario

#107-109 George Street are semi-detached brick houses constructed in 1870-71 for noted Hamilton industrialist John Moodie. The buildings are listed on the Hamilton Inventory of Architecturally and Historically Significant Buildings and the immediate neighbourhood of Hess Village is listed as a Potential Heritage Conservation District.

Architecturally, the buildings exhibit a high quality of vernacular rowhouse design and historically, the buildings' connection with an important Hamilton citizen increases their heritage value. John Moodie was a leading entrepreneur of the late nineteenth century who is best known as one of the Five Johns, celebrated for their role in bringing hydro power into Hamilton from the distant site of De Cew Falls.

Important to the preservation of #107-109 George Street is the retention of the original features on the north, east, and west facades including but not limited to the central gable, brackets, the bay windows, the front doorway and the pointed arched window in the gable.
