By-law No. 87- 246

REASONS FOR DESIGNATION

158 Mary Street,  
Hamilton, Ontario

The stone house at 158 Mary Street was built in 1855-6 for customs surveyor William Pring. Located at the north-east corner of Mary and Cannon Streets, the house originally backed onto Archibald Ferguson's farm. Since the late 19th century, it has been surrounded by residential and industrial buildings, with a row of Victorian houses to the north and a manufacturing complex to the south.

Historical Significance

William Pring only lived in the house for about four years, moving to Port Colbourne in 1860 to serve as customs officer. He sold the stone house in 1871 to Duncan MacNab who rented it out for the duration of his thirty year ownership.

The house was purchased in 1908 by William B. Hopkins, a physician, and was owned and occupied by his family until 1940. His son, Beamer W. Hopkins, had a particularly distinguished career as a politician, judge and public servant, serving at various times as alderman, controller, vice-president of the Parks Board, police commissioner and city magistrate.

Architectural Significance

158 Mary Street is a relatively rare example of pre-Confederation stone architecture in Hamilton. Representative of the substantial, two-storey stone residences built in the city during the 1850's, this four-bay house features a simple gable roof, parapet end walls with built-in double chimneys, a dressed stone front (west facade) and coursed stone end wall (south facade), corner quoins, double-hung windows which originally had six-paned sashes, and a semi-circular attic window in the end wall. Somewhat unusual is the distinctive Renaissance Revival entrance, which comprises a wide doorway flanked by stone columns supporting a semi-circular voussoir arch and traceried fanlight.

Of special interest are several interior features, notably, an elegantly proportioned spiral wooden staircase and the two rounded corners of the dining room with their curved panelled doors.

Designated Features

Important to the preservation of 158 Mary Street are the original features of the west and south facades including but not limited to the stone masonry, the original window openings, the front entrance (excluding the present front door and the 20th century porch addition) and the interior spiral staircase.
