SCHEDULE "B"

REASONS FOR DESIGNATION
HISTORICAL SIGNIFICANCE

Built in 1855 by Lawrence Witherspoon at 136 King Street West as a one floor frame house, it had a second storey added and in 1876 was finished with rough cast stucco. It was moved to Market Street around 1920. Owned by the Witherspoon's from 1855-1918, in the 1890's it was the office and residence of Dr. James McMahon, a well known local physician and member of the provincial legislature.

ARCHITECTURAL SIGNIFICANCE

The building has evolved over the years. It is now a striking example of the Ontario Gothic style and visually dominates the corner of Hatt and Market Streets. It is a symmetric two storey house with three gables along the front and an off center front door. The original features of the facade include all the windows and their surrounds, including the two two-over-two flanked by one-over-one double hung windows in the bays and the three windows in the upper storey. The panelled front door with two paned sidelights and four paned transome is also original as are the denticulate eaves of the bays with their swan's-neck brackets. The board and batten siding is recent but is in keeping with the Ontario Gothic style. The porch has been restored using balustrades that matched the original. Until recently the gables were trimmed with bargeboard.

The front facade is to be designated, and those parts of the side that belong to the original building.
