SCHEDULE "B"

REASONS FOR DESIGNATION OF
375 WILSON STREET EAST, IN
THE TOWN OF ANCASTER

The Building known municipally as 375 Wilson Street East, in the Town of Ancaster, as being of historic and architectural value and interest, was built by George Brock Rousseau in the year 1848 and is an impressive, beautifully proportioned building having been constructed of well preserved Georgian stone with the exterior and significant interior features of the described premises being in their original condition which of course offers a splendid example of a substantial village house of the mid-nineteenth century. Without restricting the generality of the foregoing the reasons for this Council designating the described premises include the intention that the following features of the described premises should be preserved, that is,

- (a) the east, north and south facades of the premises,
and
- (b) the roof, eaves and brackets, and
- (c) the chimneys on the front exterior of the
premises, and
- (d) all wooden architectural elements both interior
and exterior of the premises, including the
fenestration, and
- (e) the front door of the premises including all
doors in the interior of the premises, and
- (f) the fireplaces and their immediate surroundings
located in the interior of the premises, and
- (g) the front stairs and bannisters located in the
interior of the premises, but

this Council has no intention that any alteration, maintenance, repair, replacement or improvement of elements of the premises requires the prior written consent of this Council unless such affect the reasons for the designation of the premises as described in paragraphs (a) to (g) herein.
