Reasons for Designation

179 Clarence Street (west side between Simcoe Street and Grey Street)

Architectural Reasons

The pair of identical cottages at 177-179 Clarence Street is an excellent example of workers' cottages built circa 1888. 179 Clarence is the better preserved of the two and is a one storey white brick cottage with a side hall plan. The decorative bargeboard in the central peak is particularly attractive with pierced work, sawtooth edges and whorls at the end. The paired wooden doors on the front facade are finely detailed with a transom above. Voussoirs define the front door and windows. All windows are original and have wood sills. The storm windows are interesting, being hinged to open out like shutters (front facade and north elevation). There is a small arched window in the centre peak to allow light and ventilation in the attic. The chimney on the north elevation has been truncated and the original roof material was wood shingle. The foundation is brick.

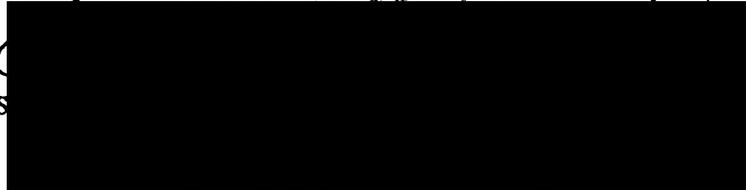

Copy of Deed to follow.

I/We hereby approve the above Reasons and consent to the Heritage Designation of the subject property.

I/We wish to amend the above Reasons as follows and consent to the Heritage Designation of the subject property.
